EMAIL | **LinkedIn** | **G i t H u b** | **LeetCode**

OBJECTIVE:

Final-year CSE student proficient in Core Java, DSA (500+ problems solved), and backend development with JDBC, MySQL, and REST APIs, seeking a Java Developer role to develop scalable applications.

Technical Skills:

- Programming – Java, JavaScript
- Backend Technologies – Spring Boot, Node.js, Express.js, REST APIs, JWT Authentication
- Frontend – HTML5, CSS3, ReactJS, Tailwind CSS
- Database - MySQL, SQL, Queries, JDBC
- Core Concepts- Data Structures & Algorithms, DBMS, OOPS, Operating Systems
- Tools – Git , GitHub , Vercel, Render

PROJECTS:

- **Pakhi City Hospital – Full Stack Hospital Management System**

  Tech Stack: React.js, Node.js, Express.js, MongoDB Atlas, Razorpay API, Tailwind CSS, Render, Vercel

  Live: **Pakhi-Hospital** | **GitHub** | Render

  - Architected and deployed a production-ready hospital web application with real-time booking, token management, and secure payment flow using HMAC verification.
  - Implemented server-side token reset logic, automated PDF receipt generation, and managed cloud deployment using GitHub, Vercel, and Render with CI/CD.

- **Quiz Game**

  Tech Stack: React.js, Tailwind, Vite, Vercel

  Live: **QuizGame.vercel.app** | **GitHub**

  - Designed an interactive quiz platform with dynamic question rendering using React Hooks for efficient state management.
  - Implemented client-side routing with React Router and built a fully responsive UI using Tailwind CSS.

- **Java Quiz Application**

  Tech Stack: Java, MySQL, JDBC

  - Developed a multi-domain quiz application using Core Java and OOP principles with MySQL integration via JDBC.
  - Implemented real-time scoring, topic-based quiz logic, and robust error handling.

EDUCATION:

Galgotias University, Greater Noida | Bachelor of Technology in Computer Science Engineering | 2026

ACHIEVEMENTS

- Solved 500+ Data Structures & Algorithms problems on LeetCode and GeeksforGeeks, strengthening problem-solving and algorithmic thinking skills.
- Practiced 20+ pattern-based question types including sliding window, two-pointer, recursion, and binary search.
